Sir:

RESPONSE TO RESTRICTION REQUIREMENT

This paper is being filed in response to the Office Action mailed on September 24, 2002. In the Office Action, the Examiner required restriction between allegedly distinct inventions identified by the Examiner as Group I (claims 1-39, 83 and 84), drawn to a cellulosic fiber composite and Group II (claims 40-82), drawn to a method. Applicants hereby elect, without traverse, to have the claims of Group I examined on the merits.

Also in the Office Action, the Examiner required election of a single disclosed species for prosecution on the merits. In response, applicants hereby elect, without traverse, claims 1-18, 30-39, 83 and 84, which are drawn to a species of resin identified by the Examiner as 1) phenolic.

Applicants note that the choice of species for substantive examination greatly depends upon the identity and number of claims, independent and dependent, that will be subject to substantive examination. Accordingly, the applicants request that they be given an additional opportunity to elect a species for substantive examination if the Examiner is of the opinion that a different set of claims reads upon the above-elected species.

Applicants respectfully submit that the application is in condition for allowance. The Examiner is encouraged to contact the undersigned to resolve efficiently any formal matters or to discuss any aspects of the application or of this response. Otherwise, early notification of allowable subject matter is respectfully solicited.

Respectfully submitted,
